Attachments: BaP Tox Review-post SAB-HERONET-5-16-2016.docx

Hi Andrew,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

The response to comments is very draft right now. I can send you a very preliminary version by COB today so you can get a sense of the format (we are loosely following Ammonia's comment response format).

Hope this is helpful.

-Kathleen

Hi Kathleen,

I know that Laura was working on the adult neurotoxicity section. I need to know what changes you've incorporated from her edits so that I can make additional/ complementary changes.

Thanks,
Andrew

Hi Andrew-

Thanks for reminding me. My feeling from talking to others is that editing a huge document in sharepoint is a nightmare. I will send you (and Karen, and Catherine) the EPR version of the tox review and supplemental info. Please everyone make your changes in track changes, add the date and your initials to the document name, and make a note for me of what sections you worked in. After I sift through the changes I will cut and paste the edits into the master draft I am working on. I think the team members are working on different parts of the documents, so this shouldn't be too bad (famous last words).

It will also be a big help if everyone can draft some notes in response to the SAB recommendations you are dealing with for me to include in the SAB comment and response document.

Thanks everyone for working with me on this crazy BaP schedule!

-K

Subject: TR and Appendix to work from?

Hi Kathleen,

Is there a stable version, or a Sharepoint version, of the B[a]P assessment that you would prefer me to work in/ add edits to? Also, how would you prefer I edit the document(s)?

Please let me know.
